

# FoolCraft v1.3 - The “Fix All The Things” Update

## \*\* NOTE \*\*

1. The Extra Utilities Mechanical Users have been disabled in this version. You have been warned.
2. Make sure to **BACKUP YOUR WORLD** before updating to this version. This update contains numerous changes and not every possible problem during an update of an existing world could have been anticipated.

---

## Core Mods Removed

- |                                           |                        |                             |
|-------------------------------------------|------------------------|-----------------------------|
| • Embers by <i>elucen</i>                 | 0.104                  | <a href="#">(ChangeLog)</a> |
| • FoamFix                                 | 0.6.2 beta 4 “Anarchy” | <a href="#">(ChangeLog)</a> |
| • Modifiable Armor 2.0 by <i>Kloonder</i> | 2.0.2                  | <a href="#">(ChangeLog)</a> |

---

## Core Mods Added

- |                                              |                       |                             |
